THIS COMPANY offers to Insurers, amongst other advantages, the following, viz.:—

First. Participation in the profits of the Company, which are declared and divided every fifth year.

Secondly. The security offered by an old established Company, possessing so extensive a capital as £5,000,000 sterling, which is alone answerable for the losses which may occur, *giving it a decided advantage over that other class of offices* which proceed on the principle of mutual assurance, and where every individual who assures is liable as a partner.

Thirdly. The guarantee afforded by the immediate management of the above Board of Directors, that honour and liberality will characterise all the transactions of the Company.

N.B.—The undersigned holds a Power of Attorney from the Directors of this Company, and, as their authorised Agent, will effect Insurances to the extent of £2000 sterling for the whole of life, or for a shorter period. Claims to the extent of £1000 will be payable at the Office of the Agent within three months after satisfactory proof of death; and when the sum assured is in excess of that amount, the balance will be payable in London within one month after receipt by the Directors of such proof of death.

Loss of the Legerdemain.—This vessel was unfortunately lost on the 8th June on Nicholson's Shoal. The following narrative, compiled by one of her passengers, will perhaps furnish the most correct report of this disaster. The Legerdemain left San Francisco, bound for Newcastle and Sydney, on the 5th May, 1852. "Left with a fine breeze from the N.W., all things continuing favourable towards making a quick passage until June 8th. At 4 A.M. a strong breeze from the S.E., all studding sails set on the larboard side, the ship going through the water at the rate of 10½ knots per hour. At half-past four, breakers were seen a-head, and the helm instantly put down. It was too late; the vessel struck on a coral reef, where she instantly bilged, and fell over on her beam ends, a succession of heavy seas breaking completely over the ship. We were in a most distressing situation, as it wanted two hours to daylight. We could not discern any signs of land around us, nothing was to be seen but the foaming sea as far as the eye could reach. At five A.M. the pinnace was got out, and two hands with great difficulty saved her from breaking up against the ship's side. Orders were given to cut away the mizen mast and relieve the ship, as she was then beating heavily against the rocks. The gripes having been cut from the long boat, she was unfortunately stove on the chocks; she was repaired as well as the circumstances of the case would allow with tarpaulins. In the meantime some hands were employed in filling a breaker of water and securing bread, thinking we should shortly have to take to the boats, and fearing the ship would not long hold out. When day-light at length came, our worst fears were about to be realised; we were unable to see any land. Our long boat, in a very bad condition for contending with the heavy seas rolling about us. At last smooth water was discerned inside the reef, and under the lee of the ship we managed to get the pinnace over and into shallow water at 8 A.M. The long boat followed; but she leaked so much as to keep two hands constantly baling. The other portion of the crew that remained by the wreck was employed in getting the gig out, which was effected, but she capsized alongside. Fortunately no lives were lost. At 4 P.M., it being low water, all hands left the boats, and went on board the wreck, which we were enabled to do, as a great portion of her ballast was washed out, and the ship driven higher on the reef. The fore and mainmasts were now cut away, and a few of the most useful articles taken from the wreck. Night coming on, the passengers and crew were divided amongst the three boats. June 9. Daylight, it being low water, a portion of the crew went to the wreck for the purpose of cutting away spars to make a raft, and others in endeavouring to patch up the long boat. As the tide had set in, we were obliged again to take to the boats. In the evening all hands resumed their labours at the wreck, until dark. June 10. Returned again to the wreck. We managed to light a fire on the ballast in the ship's hold, and cooked some warm provisions, which afforded great relief to all, as we had been constantly wet since the ship first struck. From this up to the 15th, employed in constructing a raft, which only went on slowly, as we had to work up to our middle in water. The captain and three hands went away in the gig to look for an opening, which they fortunately succeeded in finding about four miles distant, on the opposite side. The raft being completed at last, the day turning out fine, and the sea having gone down considerably, we determined to make a start. At 11 A.M., the boats went ahead to tow the raft. It was almost dark when we weathered the reef; a fine breeze sprung up, which continued throughout the night.—17th, fine weather, the raft making little progress, the long boat having five hands in her and thirteen on the raft, the gig was taken on the raft, and the pinnace towing astern, the deck of the raft being at this time two feet under water. 18th, light winds, and 19th, fine breezes, accompanied with heavy thunder and lightning; at 7 P.M., blowing a heavy gale, sea running high. The long boat parted her warp and was lost sight of; we were in a dreadful situation, as the gale was increasing, with heavy rain. The raft was continually washed by the sea, which swept away many things, and did considerable damage; the gale continued throughout the night.—20th, still very rough; at 10 A.M., the long boat hove in sight, which was cheering to all. At 2 P.M., a sail came in sight. The long boat again left with a view of speaking her, but without avail; so they were obliged to lay-to, that the raft might drift down to her. Four hands were now put into the pinnace, to get sails ready, as we had determined to leave the raft, and take to the boats. Land was now in sight; they cast off the painter, attaching the pinnace to the raft, and steered for the land. There were now nine only left on the raft. At 10 P.M., the sails were taken off the raft, fearing she might drift ashore in the night. 21st, at daylight, crew within half a mile of the land, and neither boats in sight—a heavy surf breaking on the shore. Endeavoured to get the raft out to seaward, as it was impossible to land. The long boat now came in sight, and we could perceive a number of canoes coming towards the raft. They were no sooner alongside than the natives, who were perfectly naked, commenced plundering the raft. (The land in sight proved to be Savage Island, and situated to the south and east of the Navigators, and to the east of the Tongas.) The only hopes we now had for our lives were to get into the gig, and proceed to the long boat, which was done as quickly as possible—one canoe with three men in it following us. We reached and got into the long boat, though the natives several times attempted to rob the gig. The gig was now cast adrift; made sail on the long boat, and with four oars stood off from the island—a number of canoes pursued and boarded us and stripped us of everything, even our shirts. They tried to get us ashore, but fearing from the display they had already made, that our lives were in danger, we refused. The natives then commenced selecting such things as they thought proper, and then hove the rest overboard, amongst which latter were the ship's mails, Captain's desk, private papers (with the exception of the register). A considerable quantity of gold dust and coin were also taken away. They left us in a miserable plight, having very little water, and scarcely any clothing, though there was bread and meat sufficient for a week. We were then about 300 miles, according to the Captain's computation, from the nearest island where we could obtain relief. We then agreed to steer for Tootuila, one of the group of the Navigators. June 22. Put on allowance of wine-glasses of water and two biscuits per day. Fortunately our compass and chart were preserved, though the former was in bad condition by reason of the card having been broken in two, and one of the balance needles taken away. This was supplied by a piece of lead being attached to the card. We got on pretty well up to the 28th, when a small island about forty miles from Tootuila was sighted. On the 29th we made that island. A canoe came off, and one of the natives fortunately spoke English. Inquiries were then made for the missionaries, who they told us lived close by. We then went on shore with them. We were most hospitably treated by all the natives, who seemed to outvie each other in kindness towards us. The name of this settlement was Vaitoa. On the 30th, the Terror, whaling barque, of Hobart Town, hove in sight. The longboat was launched, two hands and several of the natives pulled off to the ship, the Captain (M'Lean) lowered his boat and came ashore and took as many as the boat would carry on board the Terror; the rest went off in canoes. Captain Trenowth gave the natives the long-boat, and other articles, as a remuneration for their great kindness and attention. The Terror took us on to Upolu on the 2nd July. The British Consul (Mr. Pritchard) immediately provided us with lodgings and a change of clothing. We remained there until the Montezuma, bound for Sydney, called and brought us on to the latter place." Captain Trenowth confirms the whole of the foregoing statement, as being substantially correct. The following additional particulars have been kindly furnished by that gentleman:—The Legerdemain was a barque of 294 tons burthen, new register. She was built at Penzance, in Cornwall, by R. C. Symonds of that place, for Messrs. Millett, Borlace, and others. She was in her fourth year, classed A1 for 13 years. She was a remarkably fine vessel and a superior sailer; she made the quickest run on record from Europe to San Francisco, in 120 days. She was only 32 days out when she struck. Nicholson's Reef is incorrectly laid down on the chart, being a degree too far to the westward. Captain Trenowth speaks in the highest terms of praise of the manner in which his orders under these peculiarly trying circumstances were carried out by the chief officer, Mr. Hichans, and the crew assisted by the passengers. All hands have been providentially saved. The four men who landed at Savage Island in the pinnace, were subsequently reported by the Missionary barque, John Williams, as having left Savage Island in company with the native missionary teachers for Tongatabu. After the Captain had extended his protest, the Consul, Mr. Pritchard, called a sale of the wreck, for the benefit of all concerned; this was purchased for the sum of 11 dollars and a quarter. The Legerdemain had been under the command of Captain Trenowth since her first launch. She was a general trader. To the Captains of the Terror and Montezuma, and their officers and crews, Captain Trenowth desires to return his warmest thanks for the handsome treatment received at their hands. The names of the passengers per Legerdemain, were—Mr. Benjamin Day, Mr. Robert Ferguson and son, Mr. Peter Cavanagh and John Roddicks. The captain, crew, and passengers, have landed here in a most distressed condition, having lost their all. It is greatly to be regretted that there is no institution in this city for affording relief to distressed and shipwrecked mariners.

The Montezuma reports the Terror, of Hobart Town, at Upolou, clean, and the Tuscarora, whaler, three days ago, with 200 barrels sperm, all well. The Montezuma hails from Hobart Town, and brings a number of passengers from California, including the captain, chief officer, crew, and passengers of the ill-fated barque Legerdemain.

The Supply, schooner, hence the 30th March, has returned to port after a cruise amongst the Islands, in which she has been very successful, having obtained 65 tons cocoanut oil. She reports having, on the 17th July, spoken the Star, whaler, Captain Eury, of Sydney, two and a half months out, with 50 barrels sperm, and the Genii, brig, on the 3rd June, three months out, with 20 barrels sperm, both on the equator.

The Apparition, which arrived from Newcastle yesterday, was originally from San Francisco.

The following goods, consigned to I. and S. Spyer, were omitted in the manifest of the Saladin, from London:—1 cask cutlery, 6 casks of chains, 1 cask axes, 4 casks hatchets, 1 cask percussion caps, 3 casks hooks and thimbles, 1 cask hinges, 2 hogsheads raw and 4 hogsheads boiled oil, 22 hogsheads rum, 1 case flies, 1 case pocket knives, 4 cases boots, 18 casks bottled ale, 3 casks drugs, 2 jars and 2 half jars oil, 3 bottles acid, 1 case pills.

Captain Marshall, of the Perseverance, schooner, from Newcastle, reports the safe arrival of the Shamrock steamer, at that place, on the morning of the 8th instant, and the Thistle a short time previously. The Shamrock had encountered the whole of the severe north-east gales. The Perseverance also sighted a steamer off the land, standing north.

The Bride, schooner, the property of Mr. Pritchard, had arrived at the South Sea Islands, and would probably be laid on to proceed to the wreck of the Legerdemain.

[ADVERTISEMENT.]

The undersigned, passengers by the vessel Reiherstieg, from Hamburg, beg to return their sincere thanks to the captain and surgeon of the vessel for their kind and humane treatment during the voyage. They also thank the mates and the crew for the many instances of kindness and good feeling evinced by them. Wishing them all prosperity, they remain,

CITY COUNCIL.

QUARTERLY MEETING.

A quarterly meeting of the City Council was held yesterday, at 12 o'clock, in the Town Hall. Present—The Mayor, Aldermen Allen, Egan, Wilshire, Brown, Ryan; Councillors Campbell, Lenehan, Roberts, Driver, Peden, Pemell, Simmons, Hogan, Weekes, Thornton, Little, Thomas, Williams.

The Town Clerk read the minutes of the last meeting.

FINANCE.

The Mayor stated that £3653 2s. 2d. had been expended upon city improvements, and £2649 9s. 6d. in water expenditure; leaving a balance on the estimate in the first case of £3146 17s. 10d., and in the second of £3350 10s. 6d. The balance at the Bank was £3500. All the rates had been paid up except a few pounds.

THE MAYOR'S REPORT.

The Town Clerk read the Mayor's report for the quarter. The payments made during the period amounted to £2338 19s. 7d.

The Mayor begged, in deference to the recent judgment of the Supreme Court, to erase the words stating that he had ordered the above payments under the 62nd clause.

Mr. Simmons suggested that the adoption of the report be deferred.

The Mayor stated that the report was only to be received, and not adopted.

Mr. Weekes rose to make some observations, when the Mayor stated, that on the reception of the report no discussion could arise.

Mr. Weekes then moved the suspension of the standing order.

Some discussion arose upon the point of order, and upon reference to the standing orders the Mayor found there was no special provision in the case.

Mr. Weekes then addressed the Council, but was stopped by

Alderman Allen, who suggested that it would be more convenient that any discussion on the report should be deferred to another opportunity.

The report was then received.

REPORTS.

Alderman Allen brought up the report of the Water Committee.—Received.

The Improvement Committee's report was also brought up and received.

PETITIONS.

Mr. Roberts presented a petition from certain ratepayers of Palmer-street, complaining of the state of that street.—Received.

Mr. Lenehan presented a petition from Mr. James Wright against some proceedings of the Water Committee.

Some discussion arose on the question of the reception of the report.

Alderman Allen had no objection to the deferring of its reception.—Petition received.

CORRESPONDENCE.

The Town Clerk read a letter from Mr. W. R. Piddington, resigning his seat in the Council. Also, a letter from the Colonial Secretary, relative to the improvements in Wynyard-square, stating that the expense of levelling the new streets would be borne by the Government out of the territorial revenue.

Alderman Wilshire thought this an important matter, and stated his intention of making a motion respecting it.

Also, a letter from the City Surveyor.

Mr. Campbell enquired whether the Mayor had received any communication relative to the site of the old Gaol, where rubbish of all sorts was continuing to accumulate.

The Mayor replied in the negative.

Some conversation took place relative to the trees in Macquarie-place; but from the fact of two or three members speaking at once, it was impossible to gather what took place.

WATER PIPING.

Alderman Allen moved, that the Council do now proceed to open and determine on tenders for cast iron water piping.

The tenders were opened; and Alderman Allen moved that Mr. Russell's tender be accepted. £11 12s. 6d. for pipes, £9 10s. for the locks.

Mr. Weekes recommended that only the smallest amount necessary should be ordered, because pipes could be imported from England at a considerably lower price.

The motion was then agreed to.

CITY IMPROVEMENTS.

Mr. Thornton moved: That the following reports of the Improvement Committee, received by the Council, on the 29th March last, be adopted 1. On repairs in Goulburn-street, cost £15. 2. On repairs in Kensington-street, cost £10. 3. On purchase of blue metal from Mr. John Macnamara, at 5s. per ton. 4. On curbing and guttering in Clarence-street, cost £180. 5. On curbing and guttering in Sussex-street, £80. 6. On increase of wages to John Macnamarra, overseer of works, from 4s. 6d. to 5s. 6d, per day.—Carried.

MARKETS.

Mr. Thornton moved, that a Special Committee, consisting of Councillors Flood, Weekes, Roberts, Little, and Thornton, (the mover to be chairman), be appointed to take into consideration and report to the Council on the subject of the George-street Markets, with a view to their being altered and improved in respect of the buildings, so as to benefit that portion of the city, yield a larger revenue, and afford increased facilities to the growers, dealers, and the public. His object was to obtain a Committee to inquire what improvements could be introduced in the management of the market; and if the Committee were granted, he hoped to be able to make some suggestion which would tend to increase the revenues derivable from the markets; one suggestion was to convert them into a row of shops, fronting George-street. The suggestion was not entirely his own, having been made by several of his fellow-citizens.

Mr. Weekes seconded the motion.

Alderman Wilshire did not object to the Committee asked for; but he would rather see the present buildings repaired; as he had no particular confidence in the proposed alterations.

Mr. Simmons opposed the motion, on the ground that the proposed alterations would be very undesirable.

Mr. Lenehan also opposed the motion. The present Market Committee had not met for a length of time, and he moved, as an amendment, that the Town Clerk report what meetings had taken place.

The Town Clerk stated that only two meetings had been held this year.

Alderman Allen thought this was the very reason why the motion should be agreed to.

Some discussion arose upon the question how far any personal feelings towards Mr. Alderman Ryan, the Chairman of the Market Committee, had produced this result; when

Alderman Wilshire moved, as an amendment, that the matters referred to be referred to the present Market Committee.

Mr. Roberts seconded the amendment.

Mr. Thornton replied, disclaiming any feeling of hostility to Alderman Ryan, and had no particular wish to be appointed chairman of the Committee.

Alderman Wilshire's amendment was then put and carried.

HACKNEY CARRIAGES.

Alderman Egan postponed his motion on this subject until next meeting.

PHILLIP-STREET.

Mr. Driver moved that the City Surveyor do estimate the probable expense of curbing and guttering Phillip-street, on both sides, from King to Bent-street, forming the footpaths and covering the carriage-way with ironstone gravel.—Carried.

WATER COMMITTEE.

Mr. Driver moved that Councillors Campbell and Williams be appointed members of the Water Committee, in the place of Councillors Peck and Tierney.

Alderman Egan then moved that the Council adjourn to three o'clock, which was negatived.

GEORGE-STREET.

Mr. Campbell moved that the lower part of George-street, on the west side, in the neighbourhood of the Queen's Wharf, being only partially curbed and guttered, the City Surveyor be instructed to estimate the expense of completing the same.—Carried.

LACHLAN SWAMP.

Mr. Peden moved that the Council do now proceed to appoint a watchman for the Water Reserve Lachlan Swamp, in the place of Robert Morrow, resigned.—Carried.

The Council then proceeded to ballot for a watchman, when Mr. Michael Ryan was appointed to the office.

BRIDGE-STREET.

Mr. Roberts moved that the petition from certain citizens in Cook Ward, received by the Council on the 13th May last, praying to have a bridge erected across the Water Course in Stanley-street, be referred to the Improvement Committee, for their consideration and report.—Carried.

GAS LIGHTS IN QUEEN'S-PLACE.

Alderman Wilshire moved that the Report of the Lighting Committee, dated and received by the Council on the 10th May last, on the subject of erecting two gas lights in Queen's-place, be taken into consideration. He was decidedly opposed to the erection of any more lamps under the present system of levying general lighting rates. The motion having been seconded was agreed to.

Alderman Wilshire then proceeded to urge his objections to the unjust principle upon which the present lighting rates were raised, and referred to the practice in corporate towns in England, where it had been decided that no person residing at a greater distance from any lamp than 200 yards, should not be liable to lighting rates. This principle, he hoped, would be adopted here.

Mr. Simmons supported the views of the last speaker.

Mr. Campbell said, that as the merchants inhabiting Queen's-place were liable to lighting rates, they were to have these lights, but he objected to the Gas Company charging the City £18 10s. for laying down the mains.

Alderman Allen showed that the existing contracts with the Gas Company did not justify the expectation that they should lay down new mains at their own expense. From what he knew of the subject he was persuaded that there was very little profit derived from the lighting of the street lamps; and that the Company were not particularly anxious to extend their contracts. In this particular case he thought the petitioners were clearly entitled to the granting of this petition.

Mr. Roberts moved that the prayer of the petitioners be granted.

Mr. Driver seconded the motion, on the ground that it was desirable as far as possible to meet the Gas Company, and extend the lighting of the City.

Mr. Simmons supported the motion.

Mr. Lenehan was also in favour of the motion, looking upon this as an instalment towards the general lighting of the City.

Alderman Wilshire did not object to the erection of the lamps, but to the present system of raising lighting rates.

The motion was then put and carried.

MATHEW LACEY'S CONTRACT.

Mr. Thornton moved that the report of the Improvement Committee, dated and received by the Council on 10th May, on the purchase of 100 tons of gravel from Mathew Lacey, at 2s. 6d. per ton, be adopted. The motion was, however, withdrawn.

FIRE PLUGS.

Mr. Thornton moved that the City Surveyor be instructed to cover the iron fire-plugs in the streets, so as to prevent their being injured or doing injury to horses, carriages, or other vehicles. Withdrawn, upon the understanding that the City Surveyor's attention should be drawn to the subject.

MR. WRIGHT. SUPPLY OF WATER.

Alderman Allen moved that the report of the Water Committee, received by the Council on 10th May last, on the subject of the supply of Water to the premises of Mr. Wright, brewer, George and Bathurst streets, be adopted.

After a short discussion, it was agreed that the matter be deferred until the next meeting, to enable members to look into the subject.

WATER COMMITTEE'S REPORT.

Alderman Allen moved, that the report of the Water Committee, received by Council on 13th May, recommending a 3-inch main to be laid in Parramatta-street to the boundary of the city, be adopted.—Carried. That the report of the Water Committee, received by the Council on 13th May, recommending that tenders be invited for a supply of 3-inch water piping, be adopted.—Carried. That the report of the Water Committee, received by the Council on 13th May, recommending an increase of wages to Joseph Dickman, overseer of Water Works, from 5s. to 5s. 6d. per day, be adopted.—Carried.

IMPROVEMENT COMMITTEE.

Mr. Simmons moved that Alderman Egan be appointed chairman of the Improvement Committee, in the place of Alderman Thurlow, Mayor of the city.

The Mayor objected to this motion, on the ground that its form was irregular. No rescinding resolution could be entertained, except upon ten days' notice given by the Town Clerk, and such notice had not been given.

Some discussion upon the question of order ensued, and the Mayor left the decision to the Council, it being a matter in which he was personally concerned.

Ultimately, Mr. Simmons gave notice of a motion in due form, and withdrew his motion.

DISCOURTESY TO THE MAYOR.

Mr. Campbell moved, "That, in the opinion of this Council, they disapprove of the discourtesy shown to the Right Worshipful the Mayor, as the Chief Magistrate of the City, on the anniversary of her Majesty's birthday, in withholding from him the privilege which former Mayors have invariably received from the Executive Government; and that this resolution be conveyed to his Excellency the Governor-General through the Colonial Secretary." Some time had elapsed since he gave notice of this motion, but he was desirous of pressing it nevertheless. Although perhaps the privilege of *entrée* to Government House was not a privilege, properly speaking; yet, as in the case of all former Mayors, the courtesy of a card of *entrée* had always been extended, and as such courtesy was well qualified to maintain the respect due to the Mayor, he thought the refusal to extend that courtesy to Mr. Thurlow was very reprehensible. He then read the correspondence on the subject between the Mayor and his Excellency's Private Secretary, and deprecated the personal feeling which appeared to have prevailed in this matter.

Mr. Hogan seconded the resolution.

Alderman Wilshire thought the Council had no title to set themselves up as judges of the rules of politeness. When he filled the Mayoral chair, he received a card of entrée, but he certainly never looked upon it as a privilege of the Mayor. The entrée was merely a personal courtesy extended by the Governor to his own friends; and His Excellency had a perfect right to grant it or refuse it to whom he pleased. He thought the Mayor would have acted with better judgment had he not moved in the matter. He suggested that the motion should be withdrawn, and moved, as an amendment, that it was not the province that the Council should take any steps in the matter.

Mr. Roberts seconded the amendment, expressing his opinion that the Council had no right to question the motives or acts of His Excellency in this matter, which affected only Mr. Thurlow himself, particularly as His Excellency had distinctly disclaimed any intention to slight the citizens of Sydney.

The amendment was then put and carried.

NUISANCE IN BATHURST-STREET.

Mr. Hogan moved, "That the petition from certain citizens, received by the Council on the 10th May, praying for the removal of a nuisance on the South side of Bathurst-street, be referred to the Improvement Committee for their consideration and report."—Carried.

POTTINGER-STREET.

Alderman Ryan moved, "That the City Surveyor be directed to estimate the cost of surface drainage from the public drain near, in Bush's house in Pottinger-street, to the water's edge, and report on the best means of carrying out the same."

Councillor Driver seconded the motion, which was carried.

NUISANCES IN GEORGE-STREET.

Mr. Campbell moved, "That two sewers, situated respectively at the bottom of Argyle-street and Essex-street, abutting on George-street north, being choked up, are a nuisance to the neighbourhood, this Council is desirous of knowing to which officer of the Corporation the duty of looking after the sewers of the City belongs, the Mayor under the 62nd clause of the Corporation Act having the power, which he has exercised, and to which his attention has been drawn, without the nuisance having been abated."

The motion was withdrawn, it being understood that the matter would be taken up by the Improvement Committee.

HACKNEY CARRIAGES.

On the motion of Councillor Little, for a Special Committee consisting of Alderman Egan, Councillors Driver, Simmons, Thornton, and Little, to take into consideration the propriety of revising the by-laws, regulating hackney carriages, being called on, the Councillor giving notice was not in his place; but Alderman Egan, on the part of the By-law Committee, said, that he would bring up a report on the subject at the next sitting of the Council.

THE POWERS OF THE MAYOR.

Mr. Simmons moved, that "Whereas the Right Worshipful the Mayor, William Thurlow, Esq., having for some time past exercised in many cases an undue control over the funds of the Corporation, in opposition to the wishes and expressed opinion of a large majority of this Council: And whereas the control so exercised has in effect been pronounced by a competent tribunal illegal, it now becomes a duty incumbent upon this Council to satisfy the citizens and themselves, that such payments as have been made by the City Treasurer, E. Lord, Esq., to the order of the Right Worshipful the Mayor, and which have not as yet been passed and ratified by this Council and its proper officers, have been *bona fide* and actually necessary. Be it therefore resolved; That a Committee consisting of five members of this Council, to be appointed by ballot, be empowered to receive evidence and take such other steps as shall be deemed necessary to enable them to report to this Council without delay upon the nature of, and circumstances attending, such payments."

In making this motion, he had no intention whatever of making any charge or imputation against the Mayor, but he believed that the course recommended in this resolution was desirable, both in justice to the Mayor and to the Council. From a misconception as to the actual state of the law, the Mayor had ordered the works to be done, and payments to be made, which ought only to be made by the Council. It was therefore necessary that the Council, in fulfilment of its duty to the citizens should make this enquiry. He believed that the Mayor, in all the payments he had ordered had had the welfare of the citizens at heart, nor did he mean to say that any money of the citizens had been paid improperly; but the single object he had in view was to convince the Council and the citizens, that the works ordered by the Mayor had been desirable, and had been properly paid for. Another reason why this committee should be appointed was, that the Mayor had in some instances ordered a rise in the wages of workmen, and it was necessary for the Council to know that this rise was justifiable and reasonable, and he was at a loss to see how any one could raise any objection to this motion, because it could only tend to show that the confidence and faith reposed in the Mayor were well bestowed.

Mr. Weekes seconded the resolution.

Mr. Wilshire supported the motion, anticipating that the result of such an enquiry would be only to confirm all the acts of the Mayor.

Mr. Allen opposed the motion, believing it was calculated to disturb the lately troubled waters which has now been restored to peace. As the Council would have the opportunity of examining in detail the items in the Mayor's report laid upon the table that day, he could see no necessity for a motion of this kind.

Eventually a motion was passed, referring the Mayor's report to the consideration of a Select Committee of five members.

BUSINESS OF THE COUNCIL.

Mr. Lenehan moved, "that it is the opinion of this Council that the several works of the city are neglected, and that with a view to facilitate the business of the citizens, it is resolved that this Council do henceforth attend from day to day, Sundays and Saturdays excepted, until the whole of the business upon the paper be disposed of." Although the business on the paper for the day had been disposed of very promptly, yet the motion did not apply to the present occasion only, but to all others; and as the time of the public had hitherto been much wasted by continued postponements, and also by an unnecessary quantity of talk, he thought this motion would have a very beneficial effect.

The motion was deemed to be impracticable in operation, and was negatived.

SALARIES OF OFFICERS.

Mr. Flood moved "that this Council do take into consideration the propriety of increasing the salaries of the officers and servants of the Corporation, in consequence of the great increase in all the necessaries of life, since the discovery of the gold fields." He thought that every body would see the necessity of some such course as this, taking into consideration the difference in the price of the necessaries of life now, from what it was when these salaries were fixed. He proposed to refer this matter to a Select Committee, the only difficulty being whether the Council, having passed the estimates for the year, could now increase the salaries. If the salaries voted then were not too high, they must now be too low; and if house rent was increased full from 25 to 30 per cent, and all other people were obtaining an advance of remuneration for their services He believed that there was a sum of £1070, which would be available for this purpose being an increase of rates £254—pipes granted by the government £435—and interest on debentures, which would not be required, £400; and from this source a fair and necessary advance could be paid. He should therefore move that this matter be referred to a Committee, consisting of Mr. Flood, Alderman Wilshire, Alderman Allen, Mr. Weekes, Mr. Little, Mr. Williams, and Mr. Lenehan.

Alderman Wilshire seconded the motion, believing as he did, when the Council passed the estimates, that in justice to the officers of the Corporation that the salaries should be increased to meet the general rise in the price of labour of all sorts.

Mr. Roberts opposed the motion, on the ground that the Town Clerk and some other officers had no house rent to pay, and that the fees received by the Inspector of Hackney Carriages and nuisances amounted to a sum equal to his salary, while, to others, in a few months fresh estimates would be brought before the Council, and if there were any grievance it could then be removed.

Mr. Simmons cordially supported the resolution, and must say it was a strange argument to hear that because a man's salary was insufficient, it should not be made larger because he happened to live in a house of his own. He believed, however, that the Committee would do well to take into their discretion which of the officers should have their salary advanced. He should, however, prefer that the committee should be appointed by ballot.

Alderman Allen supported the motion, believing that such a course was both necessary and just, and in accordance with the course proposed to be taken by the general Government of the country in reference to its officers.

Mr. Driver supported the motion, but hoped that the application of the increase would not be general, as he believed that some officers of the Corporation were overpaid, while some were underpaid.

Mr. Flood briefly replied to the objections of Mr. Roberts and Mr. Egan to the committee. He had chosen it as impartially as he could, and he only wished he could have left his own name off.

The motion was carried by a majority of 15 to 3.

PAYMENT OF SALARIES AND WAGES.

Alderman Egan moved, "That the salaries of officers, the wages of the men employed on the works of the Corporation, and all sums passed by the Council, or due for contracts accepted by the Council, in all cases where the committees do not meet to pass the same, should be paid by the City Treasurer, after being duly certified by the proper officer, on a warrant signed by any three members of Council, countersigned by the Town Clerk." He should not take up the time of the Council by speaking at length on this motion. It was only to prevent an absolute inconvenience which existed as at present. The resolution did not at all interfere with the powers of the committees, except in cases where the members of those committees could not be found.

Alderman Wilshire seconded the motion, believing that it was quite necessary that some steps should be taken to remove delay and inconvenience in the payment of the officers and workmen of the Council.

Alderman Allen thought that this motion was unnecessary at the present time, as the difficulty which had existed in getting the committees together had been got over.

Mr. Weekes agreed in the views of the last speaker, and he thought if this motion was passed it would make members of committees still more careless about meeting.

Alderman Egan briefly replied, thinking the resolution would be exceedingly harmless, and that it would not interfere with those privileges of the members of committees which they seemed so much to prize.

The motion was carried by a majority of 10 to 7.

WILSHIRE v. THURLOW.

Mr. Weekes moved, "That the sum of £91 9s. 10d., being the amount of the expenses incurred by Mr. Alderman Wilshire in the case of Wilshire v. Thurlow and others in the Supreme Court, respecting the powers of the Mayor under the 62nd section of the Act of Incorporation, be paid out of the City Fund." It was necessary for some individual member of the Council to take some step in this matter, and it was, he thought, an indispensable act of justice that the costs to which he had been put in this matter should be refunded to him.

Mr. Simmons seconded the motion.

Mr. Campbell thought that this motion would have been before the House with a better grace if Mr. Wilshire had appeared before the Court in the name of the Council, rather than in his own; and he thought, also, that if the Alderman's expenses were paid, those of the Mayor should be also paid.

Mr. Wilshire stated, that he acted in this matter at the instance of a large majority of the Council, and he believed he was acting in reference to a great public principle. It was true he had gone before the Court as an individual only, but that was from a mistake of his attorney, and no fault of his own. If he had been unsuccessful in this action he certainly would never have allowed any such motion as this to have been brought before the Council. He was personally liable for every farthing of this sum to his attorney, Mr. Martin.

Mr. Lenehan moved, as an amendment, that the taxed costs in the action, Wilshire v. Thurlow, of both sides, be paid out of the City funds.

On an objection, in a point of order, the standing order was suspended, considering it necessary that all payments should be first submitted to the Finance Committee.

Mr. Hogan opposed the motion, on the ground, that it was an expense that ought not to be saddled on the citizens.

Mr. Little supported the motion.

Mr. Lenehan withdrew his amendment, and the original motion was passed by a majority of 13 to 2.

The Council then separated.

SYDNEY QUARTER SESSIONS.

MONDAY.

Before the Chairman and Messrs. George Forbes and C. H. Chambers, J.P's.

Mr. Holroyd for the Crown Prosecutor, conducted the following cases on behalf of the Crown.

George May was indicted for feloniously and violently robbing one John Jones of a jacket, two pound notes, and some silver. The jury returned a verdict of not guilty, and the prisoner was discharged.

Charles Chapman was indicted for stealing some boots, the property of John Rickards, wholesale dealer, Pitt-street. The jury returned a verdict of guilty, and the prisoner was sentenced to be imprisoned and kept to hard labour in Sydney Gaol twelve calendar months.

William Clarke was indicted for stealing some stonemason's tools, the property of Thomas Kidd. The prisoner pleaded guilty, and was sentenced to be kept to hard labour on the roads or other public works of the colony for twelve calendar months.

Catherine Maughan was indicted for stealing a sheet, a pillow case, two curtains, some towels, and some mats, the property of Baron Barnett Cohen, publican, Spring-street. The prisoner pleaded guilty, and was sentenced to be imprisoned and kept to hard labour in Sydney Gaol twelve calendar months.

Mary Ann Earls was indicted for stealing some stockings, the property of Thomas Buckland. The jury found the prisoner not guilty, and she was discharged. Mr. Nichols appeared for the defence.

Patrick Hickey and George Short, two constables of the Sydney Police Force, were jointly indicted for assaulting one Hugh Chambers. The Jury returned a verdict of guilty, and the defendants were sentenced to pay a fine of 40s. each, or be imprisoned in Sydney Gaol till paid. The prosecutor interceded very earnestly on their behalf. Mr. Brenan appeared for the defence.

John Jones was indicted for assaulting Owen Evans, a child of only eleven months old. The Jury returned a verdict of guilty, and the defendant was sentenced to be imprisoned in Sydney Gaol for twelve calendar months.

Jurors Fined.—The fine of 40s. imposed on James Oatley for non-attendance at the last Quarter Sessions, was reduced to 20s., on affidavit of excuse being handed into Court. William Tucker, wine merchant, Richmond-terrace, was fined forty shillings for non-attendance as a juror.

The Court adjourned at six P.M. till this morning (Tuesday) at ten o'clock A.M.

California. We are in receipt of papers to the 4th June, but must defer our extracts until to-morrow, our space to-day only allowing room for the following. A fatal affray, in which Captain Carphin, well known in this port, was a chief actor, and who was killed therein, is reported in the *San Francisco Herald* of the 31st May. The following is the account of this tragical affair:—"The terrible affray, which has excited so intense an interest in this community, between Captain Carphin and Oscar Livingstone, has terminated in the death of the former. We have carefully avoided expressing an opinion on the matter, and we now present our readers with the evidence given before the coroner, with the verdict. Charles S. Eigenbrodt, being sworn, said—I have known Oscar Livingstone and F. A. Atkinson since about the 1st of December last; when I first knew them, Simpson and Spang, together with Livingstone, came up and told me they were going to look for a ranch, which they had purchased on the Calaveras; I was present at the purchase of the ranch; this matter had been some time brewing between Carphin, Livingstone, and Atkinson; on the 25th May, at about 2 P.M., I think, Carphin came into the store alone; he stood talking to me a short time, leaning over the desk, when G. W. Nichols entered and spoke to the Captain in regard to an insinuation which had been made by Atkinson against Nichols; while talking about that, Atkinson and Livingstone were passing my door, Nichols asked Atkinson to come in and have that difficulty settled; Atkinson spoke to this effect, "I am done with talking; the time has arrived for action, and I am going to act;" Nichols induced Atkinson to come in; during the explanation Carphin was brought in somehow, and Livingstone contradicted something he said; Carphin told him that he had repeatedly asked him not to address a word of conversation to him under any circumstances; Livingstone said "Don't speak to me;" Carphin then said: "You spoke to me first;" Livingstone replied "I did not;" Carphin told him that he did; Livingstone then spat in Carphin's face; Carphin repeated it. About that time the pistols were drawn; I think Carphin drew a little the first; I can't say positively; Livingstone then walked up to Carphin, put his pistol to his breast and fired; several random shots were fired by each party; the pistols were pointed in my direction, and I jumped out of the window; Atkinson was standing in the front part of the store, doing nothing; Carphin, on coming out, said, "you cowardly little thief, you have given me my death wound; why did you not stand up and fight your own quarrel, like a man?" I did not see Atkinson fire; my impression is that he kept aloof all the time. W. D. Jones corroborated the above testimony, at the same time swearing that Carphin fired two shots first. S. B. Sturdevant deposed that B. Prince, Atkinson, and Livingstone, came into the saloon where he was sitting; that Atkinson offered his pistol to Prince, saying that they might have some fighting at the ranch, Prince refused it. He then gave it to Livingstone, and they all went away. The following is a copy of the verdict:—"The jury of inquest in this case find that the name of the deceased was Captain John Carphin, and that he came to his death by a ball fired from a pistol by one Oscar Livingstone, which ball entered the body of deceased under the nipple of the right breast, and ranged in the region of the vitals, inflicting a mortal wound, of which he died; that said killing was not justifiable nor excusable; and that Capt. F. A. Atkinson is an accomplice, aider, and abettor of the unlawful killing." Captain Carphin was a master mason, and was buried with masonic rites yesterday. The funeral was very largely attended, and the most profound respect was manifested. He was an Englishman by birth, and had been in the British navy. We cannot close this without saying that the attentions of Dr. Langdon to the deceased were unremitting. Oscar Livingstone, who was engaged in the late fatal affray, is still lying in a very dangerous condition.

Coroner's Inquest.—Yesterday, an inquest was held before the Coroner at the Three Tuns Tavern, Elizabeth-street, on view of the body of Drill Reid, then lying dead at the Sydney Infirmary. From the evidence it appears, that deceased was second officer of the barque Brisk, now lying off Towns' Wharf. On Sunday evening, he and some seafaring friends were taking a glass at the Patent Slip, public house, when one of the latter, named Cullen, ship-keeper of the ship Samuel Enderby, being somewhat intoxicated, deceased who (it was stated) was then sober, offered to see him on board. The sailors in their company followed them; but when half-way down to the wharf, they heard a noise in the water, and hastening down, found that both deceased and Cullen had fallen into the water. They succeeded in rescuing Cullen, but not the deceased; to find whose body every exertion was made that night, but without success. It was found yesterday morning, about eleven o'clock. A hulk lies between the wharf and the Samuel Enderby, and it was between this hulk and the wharf that the deceased fell. The hulk is about three or four feet from the wharf, from which there is a plank about twenty inches or two feet broad, leading to the ship. Cullen was staggering when he left the public house, holding the deceased's arm; and it would seem that in getting upon the narrow plank, he stumbled, and dragged deceased with him into the water. Deceased was not more than 27 years of age. Verdict, accidental death from drowning.

Water Police Office.—The adjourned wages case, Pearce v. Peacock, was determined yesterday, when a verdict of £15 15s. 6d., with 7s. 10d. costs, was given for the plaintiff. In this case, which occupied the greater part of the time of the Court on Saturday and yesterday, the point at issue was merely whether so [illegible] shillings had or had not been paid to complainant at New Zealand on account of the balance of wages due to him; and the finding of the Bench decided that it had been so paid. The Court was afterwards occupied yesterday with hearing the charge of assault preferred by the Chief Officer of the ship Charles Carter, against one of the seamen. It was ultimately adjourned until this morning.

Forged Notes.—On last Thursday night two men went to Mr. Entwisle's Hotel, York-street, and having called for refreshment, apologised for having no small change, and tendered in payment what appeared to be a £10 note of the Bank of Australasia. Mr. Entwisle suspected the genuineness of the note, which, however, Mr. E. would not have [illegible], looking at the respectable appearance of the individuals. Mrs. E., however, asked the man who paid the note and took the change to endorse it, which he indignantly refused to do, offering to refund the change if she pleased, and said he might be found any morning on board the ship Moffit. His manner induced his offer to be declined, and the two went their way. On Friday morning Mrs. Entwisle's fears were realised on presentation of the note at the Bank: it had been a genuine £1 note altered to represent in its more prominent features a £10 note. Information was given to the police, in consequence of which Inspector Singleton, at 9 o'clock on Sunday morning, proceeded to Kinchela's public house, Campbell-street, and there found Robert Gould, (*alias* Jolly Nose,) whose description corresponded with that of one of the two spoken of by Mr. Entwisle; and at the same house, also, in bed, found William Johnson, George William Baxter, and William Fisher; he took Gould into custody on the charge of uttering the note, and the three other men on suspicion of being accomplices. In a coat said to belong to Baxter were found several files and skeleton keys. They were yesterday brought before Mr. Dowling. Mr. Entwisle swore positively to Gould as one of the two men, and the man who paid the note and received the change, of the rest he knew nothing. Mr. Nichols cross-examined Mr. Entwisle for the prisoner, but did not shake his deposition. Gould was remanded for Mrs. Entwisle's evidence; Baxter was remanded for further enquiry respecting the picklock implements; Johnson and Fisher were discharged.—On Saturday night, three men went to Chinnery's eating-house, King-street, called for supper, and tendered in payment a £1 note, altered to represent a £10 note. Mr. Chinnery at once discovered the fraud, and sent for

a policeman, but the rascals effected their escape. If tradesmen will but take the trouble carefully to inspect these notes in a good light, they need be in no fear of imposition of this sort.

FORGERY.—John Johnson Coveny was yesterday committed to take his trial at the Supreme Court, in October next, for having, on the 3rd June last, presented for payment at the Union Bank a cheque for £35 8s. purporting to be drawn by Mr. A. Druetler in favour of Henry White. He was given into custody at the time, but while the officer was making inquiry about a man from whom Coveny said he had received the cheque, he managed to make his escape. On Friday last he was again apprehended. The facts were clearly proved by Mr. Dacre, clerk at the Union Bank, to whom the cheque was presented; and the spurious character of the paper by Mr. Dreutler. He offered no excuse, nor made any defence.

Mr. George A. Lloyd has requested us to remind intending purchasers of the following sales, to be held at the City Mart, this morning:—At 11 o'clock, a beautiful assortment of London-made saddlery, ex Phœnician; at 12 o'clock, shares in the Second Building Society; land at Surry Hills; land at Newtown; house and property at Parramatta: the whole being for sale to the highest bidder, are well worthy of especial attention.

SURPLUS STORES, &c.—Purkis and Lambert remind buyers that they sell the surplus stores, fittings, &c., of the Mount Stuart Elphinstone, this day, at 11 o'clock, at the Circular Quay.

Tobacconists, Grocers, and others, are requested to notice that Mr. Mort will sell, this day, at 11 o'clock, at Pollard's Bonded Stores, a quantity of Shellard's and Honey Dew Tobacco, which will be found to be worthy of attention.

ORIGINAL CORRESPONDENCE.

To the Editors of the Sydney Morning Herald.

GENTLEMEN,—Observing an article in this morning's issue of your paper, on American Meat Biscuit, I beg leave to state that you labour under mistake in supposing that the manufacture has not been attempted in this colony, I having been manufacturing gelatine biscuit, made exactly in the same manner as the description given by Mr. Ashel Smith, and, sending them to our mines, and exporting to Port Phillip, for some months.

I hope you will insert this note to show your readers that we Australians are not so far behind Go-a-head Brother Jonathan as the article of this morning would lead them to imagine.

I am, Gentlemen,
Your most obedient servant,
GEO. WILKIE.

Steam Biscuit Manufactory, George-street, August 9.

UNIVERSITY OF SYDNEY.
THE Senate of the University of Sydney gives notice, that the first Matriculation Examination will be held on Tuesday, October 4th, 1852.

In Mathematics the candidates will be examined in the ordinary rules of Arithmetic, Vulgar and Decimal Fractions, the first four rules of Algebra, and the first book of Euclid.

In Classics the candidates will be examined in the sixth book of Homer's Iliad, the first book of Xenophon's Anabasis, the first book of Virgil's Æneid, and the Bellum Catilinarium of Sallust.

Also in the History and Geography connected with those portions of the above works.

The Senate has passed the following resolutions relative to this examination.

1. That no person be admitted as member of the University, except on certificate of having satisfactorily passed the examination for Matriculation.
2. A Fee of Two Pounds shall be paid at Matriculation.

No candidate shall be admitted to examination unless he have previously paid this fee to the Registrar.

If a Candidate fail to pass this examination, the fee shall not be returned to him, but he shall be admissible to any future examination for matriculation without the payment of any additional fee.

3. The Examination shall be conducted by means of printed papers.
4. The College Lectures, which all Students matriculated this year must attend, will commence on Monday, October 11th, and terminate on Saturday, December 11th.

The fees payable will be Two Guineas for each course of Lectures.

5. It is intended to divide the matriculated students of the present year into two classes, according to their several degrees of proficiency, as shown in the Matriculation Examination.

Each Professor will deliver a lecture to each division daily.

The subjects upon which the Principal will lecture are:

For the Upper Division: Thucydides, Bk. 1. Sophocles Antigone. Sallust. Bell. Jug. Horace Epistles.
For the Lower Division: Xen. Anabasis, Bk. 1. Hom. Iliad, Bk. 1. Cicero de Senectute. Virg. Æneid, Bk. 6.

The subjects on which the Professor of Mathematics will lecture are:
Euclid—first 4 Books
Arithmetic.
Algebra.

Lectures will also be delivered daily in Chemistry and Natural and Experimental Philosophy by Professor Smith.

The Students attending lectures must appear in Academical Costume.

Every case of insubordination, or other misconduct, shall be laid before the Senate by the Board of Professors: the Senate will deal with such case according to their discretion.

Notice is further given that six Scholarships of £50 a year each, tenable for three years, will be open for competition to matriculated students, by an examination to commence Monday, December 6, on the following subjects:—

MATHEMATICS.
Arithmetic and Algebra, as far as Quadratic Equations inclusive.
First four books of Euclid
The popular Elements of Statics and Dynamics.

CLASSICS.
Greek: The Medea of Euripides
Xenophon's Anabasis.
Latin: First six books of Virgil's Æneid
Cicero de Amicitia
Roman Antiquities
Translation from English into Latin
Questions in Ancient History connected with the foregoing works.

This examination will be conducted principally by printed papers: at the conclusion of which each candidate will undergo a viva voce examination.

N.B.—Every information with reference to the foregoing matters can be obtained by reference, either by post or personally, to the Registrar, at the College, in Hyde Park.
WILLIAM LOUIS HUTTON, Registrar.

WYNYARD HOUSE,
559, GEORGE-STREET.
MESSRS. THOMAS GARTON AND CO. (Successors to Mr. AUGUSTUS DREUTLER'S Retail Business) respectfully announce to the ladies and inhabitants of Sydney generally, that they have this day opened their establishment.
To state the principle upon which they intend conducting their business, or to enumerate the articles of which their RICH and EXTENSIVE STOCK is composed, they deem unnecessary; suffice it to say, that they will be guided by those principles which have won for their predecessor the lasting confidence of all; and that having made arrangements for receiving monthly shipments of Goods from the BRITISH and FOREIGN Markets, they flatter themselves that a stock better suited for the requirements of the Retail Customer will not be found in the colony.
Special attention will be paid to the SILK, SHAWL, DRESS, and VISITE department; and care will be taken to have always on hand a well assorted stock of every article suited for household purposes. 3531

These medicines have now established themselves in New South Wales, by means of the numerous wonderful cures which they have effected, when all the "regular" means have failed. The published cases are not as one to a thousand of the total amount of good done. The following is a statement from a most respectable hotel-keeper in Geelong, known to most travellers in that quarter:—

"My recent cure, of an ulcerated leg, by means of Holloway's Pills and Ointment, induces me to present my case before the public in the hope that many others who are afflicted in the same way that I have been, and who do not believe in the efficacy of Holloway's Medicines, may derive equal benefit from the use of them. I had been afflicted for about three years with an ulcerated leg, and had the best medical treatment in Van Diemen's Land and Melbourne, without experiencing any relief, when a short time ago, hearing of the wonderful cures effected by the use of Holloway's Pills and Ointment, I resolved upon trying them. I purchased a few boxes of Holloway's Pills and Ointment, in Mr. Cregin's shop, in Collins-street, Melbourne; and with gratitude I acknowledge that after using them, and attending to the directions, I found my leg effectually cured. Being well-known in Melbourne and Geelong, I publish this statement, convinced that by doing so I only perform a duty that I owe to the community at large.

MR. GEORGE A. LLOYD has been favoured with instructions for the absolute sale of the undermentioned valuable properties, belonging to Henry F. Cliffe, Esq., and situate in exceedingly eligible positions on the Surry Hills, and at Newtown and Parramatta.

The sale will be held at the City Mart, 474, George-street, THIS DAY, Tuesday, August 10, at 12 o'clock precisely, in the meantime plans of the properties can be seen at the Auction Rooms, and all further particulars ascertained on application. A brief description is subjoined:—

THREE ALLOTMENTS in Macquarie-street, adjoining the Wesleyan Chapel, and containing two roods and twelve perches, upon which there has been recently erected

A HANDSOME, WELL-BUILT STONE COTTAGE

Of four rooms, with detached kitchen, loft over, pantry, coach-house, stables, oven, and every other convenience requisite to render it a most complete and comfortable residence for a respectable family.

This property requires no recommendation from the auctioneer, every person at all acquainted with Parramatta knows that it is one of the prettiest little places in it.

SURRY HILLS.

A CHOICE ALLOTMENT of Land, containing two roods and eleven perches, situate on the Surry Hills, adjoining Mr. E. S. Hall's grant, and possessing a frontage of two hundred and three feet to the Botany Bay road.

This land was selected by the proprietor some time previous to the present great demand for, and increased value of, property in that neighbourhood. It can therefore be depended upon as a most eligible site for building purposes.

NEWTOWN.

A most valuable parcel of about ten acres, (originally divided into six building allotments) situate upon the Newtown Road, on the western side, a short distance beyond the Church, and possessing the very large frontage to the road of fourteen chains sixty-eight links.

With respect to this property the auctioneer would remark that it is a most excellent situation for building purposes. And looking at the vast increase made during the last few years, in the respectability and number of inhabitants in that neighbourhood, there can be no doubt that this land will soon become of great value.

Terms of sale.

10 Per cent. cash deposit
20 Per cent. at three months, with interest at 8 per cent.
20 Per cent. at six months, with interest at 8 per cent.

The residue may remain upon mortgage, if required, for two years, at eight per cent. 1889

WEDNESDAY, 1st September.
CHOICE SUBURBAN ALLOTMENTS, VALUABLE COUNTRY LANDS, AND COTTAGES.

PURKIS AND LAMBERT have been favoured with instructions to sell the following select properties, for the representatives of the late Mr. Samuel Lyons, at their Rooms, 451, George-street, on WEDNESDAY, 1st September, at 11 o'clock precisely, on account of the large number of Lots—

AT PADDINGTON,
Near the Military Barracks,

In Victoria-street—Lots No. 30, 31, 35, 36, 62, and 64.

Six Allotments, having each 25 feet frontage by 50 feet depth.

In William-street—Lots No. 16 and 17.

Two Allotments, having each 26 feet frontage by 56 feet depth.

In Albert-street—Lots No. 14, 15, and 18.

Three Allotments (adjoining), having each 26 feet frontage by 56 feet depth.

*** These allotments occupy a beautiful position, past the Barracks, on the high land opposite Gordon's mill, commanding the picturesque scenery of the Harbour and Cook's River. A more delightful building site cannot be found around the city. The omnibus passes at all hours.

AT O'CONNELL TOWN,
Camperdown, Parramatta Road, adjoining Grose Farm.

Parramatta Road—Lots 4 and 5.

Two Allotments, having each 26 feet frontage by a depth of about 70 feet.

Dowling-street—Lots 34 and 35.

Two Allotments adjoining the above, in the rear, having each 26 feet frontage by about 70 feet depth.

*** N. B.—The four allotments above described, together form a compact property on the high road, well situated for business premises.

LOT 48.

An Allotment having 26 feet frontage by 80 feet depth.

Burton-street—Lots 76, 77,* 78, 79, 93, 94, 95, and 96.

Eight Allotments, having each 26 feet frontage by a depth of 80 feet.

Note.—Lot 77 adjoins lot 48 (in the rear), the two lots fronting two streets.

Stephen-street—Lots 126, 128, 131, 132, 143, 144, 145, 146, 150, 151, 152, 153, and 154.

Thirteen Allotments, having each 26 feet frontage by 80 feet depth.

Elizabeth-street—Lots 163, 170 to 177, 113 to 187, 195, 206, and 209.

Seventeen Allotments, having each 26 feet frontage by 80 feet depth.

CAMPERDOWN ROAD,
Leading from the Parramatta to the Newtown Road.

LOTS 164 to 167.

Four Allotments, having each 26 feet 8 inches frontage, by 80 feet depth. Lot 167 is a corner allotment, having 80 feet frontage also to Elizabeth-street.

AT GEORGE TOWN,
Camperdown North, Parramatta Road, opposite O'Connell Town, and extending to Grose Farm Creek.

BLOCK 1.—LOTS 1 to 15.

Fifteen Allotments, having each 24 feet frontage to the Parramatta Road, by 100 feet depth, with similar frontage to Purkis-street in the rear. Lot 15 is a corner allotment, having also 100 feet frontage to Lyons-street.

BLOCK 2.—LOTS 1 to 30.

Thirty Allotments, Lots 1 to 15 having each 24 feet frontage to Purkis-street, by 92 feet depth. Lot 15 is a corner allotment, having also 92 feet frontage to Lyons-street. Lots 16 to 30, having each 24 feet frontage to Lambert-street, by 92 feet depth. Lot 30 is a corner allotment, having also 92 feet frontage to Lyons-street.

BLOCK 3.—LOTS 1 to 30.

Thirty Allotments, Lots 1 to 15 having each 24 feet frontage to Lambert-street, by 92 feet depth. Lot 15 is a corner allotment, having also 92 feet frontage to Lyons-street; Lots 15 to 30, having each 24 feet frontage to Samuel-street, by 80 feet depth. Lot 30 is a corner allotment, having also 80 feet frontage to Lyons-street.

*** The above 75 Building Allotments lie between Ireland and M'Laughlin's original purchases of the Camperdown Estate, occupying a most valuable position on the Parramatta Road.

ALSO,

In the rear of the above 75 Allotments,

A MOST VALUABLE PIECE OF LAND,
With water frontage to Grose Farm Creek,

Containing 6 acres and 25 perches, will be sold in one or more lots, to suit purchasers.

The above land is separated from the Glebe Property by Grose Farm Creek, and is a most suitable spot for the reception of sheep, cattle, or stock on their way to Sydney. To a carcase butcher it would be invaluable. In fact, the whole of the above properties are just suited to supply the present demand for land in the suburbs. They are at a convenient distance from town, and with which there is constant intercourse by the public conveyances.

AT VAUCLUSE,
Between the Old and New South Head Roads.

LOTS 16, 17, 19, 22, 23, and 24, containing 20 acres and 36 perches, more or less.

This land is most beautifully situated, between the upper and lower roads to the South Head, and offers most desirable sites for the erection of Villa Residences; the views from this spot of the harbour, from the Heads to the City on one side, and of the Ocean on the other, are unsurpassed for magnificence. It may also be observed that a good road is now laid down for the whole distance between Vaucluse and Sydney.

		a.	r.	p.	
Lot 16	contains	4	0	5	more or less
„ 17	„	4	0	33	„
„ 19	„	1	3	10	„
„ 22	„	3	0	29	„
„ 23	„	4	0	3	„
„ 24	„	2	3	36	„
	acres	20	0	36	

NOTE.—The above allotments adjoin each other, forming an entire block, next to the reserve for churches and chapels: a more enchanting spot for residence it is impossible to select around Sydney.

140 Acres of Land at the
PENNANT HILLS,
Formerly known as the "Owens's Farm," and "Governor's Arms."

This valuable farm is described in the title deeds as "All that piece or parcel of land, in the colony of New South Wales, containing by admeasurement one hundred and ten acres, be the same more or less, situated in the county of Cumberland and parish of the Field of Mars, number one of the Veteran's Allotments, and bounded on the north by a line commencing at a marked tree on Grose's boundary, bearing north seventy degrees east five chains, by a line south twenty degrees east twenty chains, by a line north seventy degrees east twenty-seven chains, by a line north twenty degrees west twenty chains, and by a line north seventy degrees east fifteen chains, on the east by a line south of forty chains, on the south by a west line of ten chains, and by a south line of ten chains, and by a west line of twenty chains, and on the west by a line bearing north twenty degrees west forty chains to the marked tree.
